HEALTH HINTS

Why register births, some people ask? Some reasons are: That the birth, date of birth, parentage and other essential information for governmental and identification purposes may be made a matter of official record.

That the ages of school children may be definitely known, making the proper enforcement of school laws possible.

That the laws affecting child labor may be effective, and the children of the poor thereby protected.

That blindness may be prevented by prompt medical attention to the infected eyes of the newborn.

That infection and mortality among women may be prevented and that young babies may be saved by immediate attention by existing agencies for the relief of the poor.

Why register deaths, some also ask? That there may be available complete and accurate information as to the deaths of all human beings, with dates of death and causes of death, to the end that preventable causes of death may be eliminated and human lives lengthened.

That the various public health agencies—national, state and municipal—may determine what part of our mortality is preventable and when and where preventable deaths occur.

That pestilential and epidemic diseases may be detected promptly.

That we may apply our present-day scientific knowledge of disease prevention at the time and in the place where such application is most needed.

HEALTH QUESTIONS ANSWERED.
Mrs. E. R.: "Who started the present-day fad for personal hygiene. I don't remember such a lot of fuss about health when I was a girl."

Personal hygiene is not a fad. The Greeks taught it three thousand years ago as an essential in the up-building of a vigorous nation.

FELLOW TOWNSMEN MEET IN FRANCE

Frank Fisher Comes Across Serbian Who Formerly Lived Here.

Far away in France a Fairmont boy ran across a Serbian, who used to work for Andy Nickolish, a road contractor, who did considerable work for Marion county. This is the information that Frank Fisher, a Fairmont boy, who is a member of the American Expeditionary force of engineers who are building roads "somewhere in France," writes to his aunt, Mrs. J. H. Abbott, of this city. This particular foreigner that Mr. Fisher refers to had lived in Fairmont while the construction work was being done. He is now a member of French foreign legion.

Mr. Fisher writes that everyone is well, he is no doubt referring to the soldier boys as a whole and to the several Fairmont boys who are engineers in France with him. The weather is exceptionally fine according to Fisher for this season of the year. The letter was dated September 7. Mention is made that he saw a division of French troops leave for the front. At this point the censor erased the name of the place. Like the vast majority of the soldier boys Mr. Fisher wants something to smoke and he requested his aunt to furnish him with the same.

Mr. Nelson is a native of Pomeroy, Meigs county, Ohio, and came to live with his granddaughter last February. Despite his advanced years he enjoys excellent health. TO OUR CUSTOMERS AND FRIENDS

Did you ever stop and think that a Merchant who is the agent for a thousand customers can sell for less than the merchant who is the agent for two hundred customers? Why is it, you ask. The merchants who buy their supplies in large quantities always receive better prices than the smaller merchant; this is why we can make you the prices we quote. We do not CUT prices, but are willing to divide our profit with you.
